

Air-conditioning & Refrigeration

Due to local community requirements Carpentaria Contracting purchased the air-conditioning and refrigeration Company, Statewide Air-Conditioning.

As a locally based company, Carpentaria Contracting was able to secure several long term contracts with key players in the local Mining, Hospitality, Health and Communications industries. Seeking to expand our service base saw the initiation of operations throughout the Torres Strait and NPA regions.

Some of the clients that engage Carpentaria Contracting's air-conditioning and refrigeration services are:

Maintenance

Our AC&R Department has carried out many maintenance packages throughout Cape York Peninsula for various clients. These include maintenance of air-conditioning and refrigeration equipment in Police Stations, Education Departments, Health Departments, Shopping Centers, Defense Facilities, State and Federal owned Housing.

Commercial

Carpentaria Contracting is committed to delivering the best service possible and over the last 7 years has been involved in the Construction, Upgrade and Maintenance of Licenced Establishments and Recreational Clubs, Single Persons and Mess Facilities, Take Aways, Restaurants and Grocery Shops.

Domestic

With the development of the New Nanum Subdivision in Weipa and an increase in the accommodation market throughout both the Weipa and Torres region Carpentaria Contracting has taken orders for the installation of split system air-conditioning packages from 1 unit to 120 units in both single story and multi story dwellings.

Marine Systems

The Cape York and Torres region has supported a significant fishing industry since the late 60's and with the development of the regions the sea bound freight systems have grown. These industries have led to the ongoing requirement of support industries such as Air-conditioning and Refrigeration, Electrical and Mechanical services.

Carpentaria Contracting has been a strong provider of these services to the Prawn and Fishing Industries along with the Crayfish industry and the sea bound freight carries, having extensive experience in Reefer units, Snap Freezers and refrigeration plants.
